

PSP DB steps for switch from RDS to ADG

For Cutover from RDS to IHP and invoking ADG Switchover :

On RDS

Stop App / Check Connections
Lock Users
Check GG Replication Lag Status and make sure latest heartbeat update gets replicated.
Restart Extract / Replicat - for stats reset

On IHP

Check Replication Status - 0 Lag
Unlock Users
Switchover to AWS oracle-EC2

Change Extract for Remote Capture - AWS EC2 as Source

On AWS Oracle-EC2

Check Primary Role
Check incoming connections
Check ADG Replication
Check Remote Delivery/GG replication to RDS
