Inactive Companies

In the context of target archival companies, these were the definitions considered.

Definition 1: Companies with Disabled Entitlement & Disabled Entitlement Unit

Issues:

- a. There are multiple companies do migrate from one Entitlement to another so the same company can be Active on another Entitlement.
- b. There are numerous companies which doesn't have updated Entitlement Unit status as Inactive though its Entitlement is Disabled.
- c. Accountants used to create thousands of companies on their licenses and which are no more active later on. In this case, ideally Entitlement will be Enabled & EU Inactive but this is not updated as expected.
- d. Along with that even subscription end date is also update to date for many Entitlements.

Considering the above issues, couldn't come up with exact data, but here are the data considering just Entitlement.

Till Year	No. of Inactive companies	Queries
1/1/2019	1,798,418	Query <pre>select /*+PARALLEL(16)*/ count(*) from (SELECT /*+PARALLEL(16)*/distinct c.company_seq FROM pspadm.psp_company c, pspadm.psp_entitlement e, pspadm.psp_entitlement_unit eu WHERE c.company_seq = eu.company_fk AND e.ENTITLEMENT_SEQ = eu.ENTITLEMENT_FK AND eu.last_validation_date < to_date('01-01-2019 00:00:00', 'dd-mm-yyyy hh24:mi:ss') MINUS SELECT /*+PARALLEL(16)*/ distinct c.company_seq FROM pspadm.psp_company c, pspadm.psp_entitlement e, pspadm.psp_entitlement_unit eu WHERE c.company_seq = eu.company_fk AND e.ENTITLEMENT_SEQ = eu.ENTITLEMENT_FK AND e.ENTITLEMENT_CODE_FK = ec.ENTITLEMENT_CODE_SEQ AND e.ENTITLEMENT_STATE = 'Enabled');</pre>

1/1/2021	2,040,606	
1/1/2022	2,299,068	

Definition 2 : As the above definition doesn't giving required data, and for any active company there must be at least validation calls from QBDT (Considering legacy with no Cloud services active). So the companies which doesn't have any validation call for long time, considering them as Inactive company.

Here are the data based on this definition based on date:
