

Pod Scaling Strategy

This document describes the various steps to follow when changing the database password.

Scaling process

1. Go to ArgoCD (follow the link below)
2. Click on SYNC
3. Enter the branch-name (default value will be HEAD)
4. Click on Synchronise

Scaling down the pods to zero

Application	Branch Name	ArgoCD	Owner	Status	Docker Image	
PSP	maintenance-on-prod	https://payroll.argo.cd.tools-k8s-prd.a.intuit.com/applications/payroll-dtpayroll-dt-payroll-svc-usw2-prd-prd		Done	master-33ae394	https://github.intuit.com/payroll-dtpayroll/dt-payroll-svc-deployment
