## Goal

Migrate PSP Audit Oracle Database to Postgres Database with no/minimal customer and partner system impacts.

- Validate Deployment, App and Database Infrastructure built for Postgres Migration.
- Validate 50% of P0 OLTP workflows and 10% of P1 OLAP workflows.
- Validate the Rollback Runbook.
- Learn from issues to prepare for Production Tiptoe and Cutover.

## Tiptoe Summary

| Downtime         | Estimated | Actual  | Comments                                                                                                                                                                                                                                                                  |

## Deployment Pull Requests

- Ensure All PRs are reviewed and latest images updated.
- Comment out Batch Jobs Unscheduling and Rescheduling.
- Comment out DB Updates Task.
- For Manifest model of deployment, use object deletion. Use PRs for the remaining deployments.
